SUMMARY

Computer Engineering student at PDEU with a 9.57 CGPA, focused on building practical software and ML-powered tools. Experienced across the full development lifecycle — from data preprocessing and model training to API integration and deployment — through internships and self-driven projects. Quick to pick up new technologies and comfortable working in cross-functional teams.

SKILLS

Programming: Python, C++, Java, SQL

Machine Learning: Logistic Regression, XGBoost, Random Forest, KNN, SVM, scikit-learn

Data & NLP: Pandas, NumPy, Matplotlib, Seaborn, TF-IDF

Tools: FastAPI, Firebase, Git, GitHub, Jupyter Notebook

Core CS: Data Structures & Algorithms, Object-Oriented Programming

EXPERIENCE

AI/ML Intern | Techify Solutions Pvt. Ltd. *Jun 2026 – Jul 2026*

- Completed a one-month AI/ML internship building and deploying machine learning models integrated with backend APIs.
- Implemented K-Nearest Neighbors and Logistic Regression classifiers, covering data preprocessing, feature engineering, model training, and evaluation.
- Built and integrated RESTful APIs with FastAPI to serve ML models within a full-stack application.
- Contributed across the full development lifecycle — from data preparation and model building to API integration and testing — while strengthening practical skills in Python, scikit-learn, Pandas, and NumPy.

CSSI Intern | Rainbow Force Foundation — Ahmedabad *Jun 2025*

- Tutored 30 underprivileged students in English, mathematics, and general knowledge.
- Coordinated educational activities and assisted with community food distribution efforts.

Physics Tutor | Physics is Everywhere — Ahmedabad *May 2024 – Jul 2024*

- Tutored Class 11 and 12 students in Physics.
- Guided students in exam preparation for board exams and competitive entrance tests.

PROJECTS

ComplaintTracker AI — Complaint Management System

Python, FastAPI, React, scikit-learn, PostgreSQL, Telegram Bot API

- Built an AI-powered system that classifies customer complaints by category and urgency and suggests next steps, replacing manual triage.
- Designed role-based access for Support, QA, and Manager users with dashboards tracking resolution times and flagging overdue complaints.
- Added a feedback loop where QA corrections improve future classifications; integrated a Telegram bot for multi-channel complaint submission.

GreenHydro — AI-Powered Blockchain Certification System

React, Node.js, Express, Python, Flask, Random Forest, Firebase, Solidity, Hardhat

- Built a system to analyze green hydrogen production data and automate subsidy certification using ML, with blockchain records to prevent fraud.

Creditscout — Credit Scoring for the Unbanked

Next.js, FastAPI, Python, Firebase, XGBoost

- Developed a credit scoring platform that uses transaction history to generate a credit-readiness score for people without formal banking records.

Jobwemet — Skill Intelligence System

React, FastAPI, Python, Firebase, Chart.js, Git

- Built a full-stack platform for skill-gap analysis with personalized learning recommendations and an AI-powered assistant.

Formula 1 Data Analysis

Python, Pandas, Matplotlib, Seaborn

- Analyzed 500+ F1 races to explore performance trends and race strategy patterns using Python visualization libraries.

EDUCATION

B.Tech, Computer Engineering — CGPA: 9.57 | Pandit Deendayal Energy University — Gandhinagar, Gujarat *Expected May 2028*

Class XII, Science — 97.7 percentile | Sharda Mandir Modern High School — Ahmedabad, Gujarat *May 2024*

Class X — 97.2% | Zydus School For Excellence — Ahmedabad, Gujarat *May 2022*

ACHIEVEMENTS & PROFILES

- CGPA 9.57/10 at PDEU — consistent academic performance across semesters.
- Active on LeetCode with 250+ questions solved.
- Class XII — 97.7 percentile; Class X — 97.2%.

CERTIFICATIONS

- Fundamentals of Deep Learning — NVIDIA (Jul 2025)
- AWS APAC Solutions Architecture Job Simulation — Forage (Jun 2025)
- Deloitte Australia Technology Job Simulation — Forage (Jun 2025)
- NumPy and Pandas in Python — Infosys Springboard (Jun 2025)
- Python 101 for Data Science — Cognitive Class, IBM (Jun 2025)
- Basics of Finance — HP LIFE (Jun 2025)
